

ENAP

# Julio Friedmann Encina

---

DEPUTY GENERAL MANAGER

Civil Engineer from Universidad de Chile, graduated with the highest distinction in 1995. He holds a Master's degree from the Massachusetts Institute of Technology (MIT) Business School. He has extensive experience in the area of Energy and Infrastructure in the public and private sectors. In 1994 he worked for the Ministry of Public Works and in 2000 he moved to the then tri-Ministry of Economy, Mining, and Energy. Subsequently, he led various areas of ENAP for 4 years, and in 2005 became the company's Refining, Logistics, and Marketing (R, L&C) manager, being the youngest Line of Business manager ENAP has ever had. In his most recent career, he has served as CEO of global companies, in charge of international and regional investment projects, as CEO of the French ALSTOM for the Southern Cone, and as commercial director of the renewable business for Latin America of the North American General Electric. Since November 2022 he has been the CEO of ENAP.
