

ENAP

Daniel Abraham

MANAGER ENAP ARGENTINA

Chemical engineer. He joined the company more than 20 years ago as head of Production Engineering at the Pampa del Castillo-La Guitarra field. Later, he served as head of Operations and manager of the Golfo San Jorge Business Unit. Additionally, he assumed interim Management of the Cuenca Austral asset, which allowed him to learn about Off Shore operations and reach Operations Management. Since April 1, 2021, he has been manager of ENAP Argentina.
