

ENAP

Juan Carlos Cuervo

MANAGER ENAP ECUADOR

Bachelor of Science in Petroleum Engineering from the University of America (Colombia). He has more than 20 years of experience in executive positions in oil companies in Brazil, Venezuela, Angola, Algeria and France. Throughout his career, he has been responsible for leading large teams, developing digitalization and environmental impact reduction projects, in addition to achieving greater financial stability and improving the quality of services. Likewise, he has demonstrated enormous professionalism in addressing complex problems, combining creativity, flexibility and careful analysis of the facts. Furthermore, he has proven to be an executive committed to his work and achieving goals.
