

ENAP

Felipe Henao Vargas

**CORPORATE MANAGER
OF OPERATIONAL INTEGRITY AND RISK**

Industrial Engineer from Universidad Cooperativa de Colombia. He has an MBA from the University of Palermo (Argentina), a specialist in Asset and Operations Management, with international studies and certifications in Reliability and Project Engineering. Outstanding lecturer and author of publications in the areas of Integrity, Reliability, and Process Safety management. With more than 25 years in the hydrocarbon industry, he has held leadership positions in critical areas of projects and operations for leading companies in the region such as Petrobras and Ecopetrol. In 2016, he took over as corporate manager of Integrity and Reliability at Pluspetrol, and was responsible for implementing the program of the same name in African and South American operations. In 2021, he held the position of Project Director, supporting Pluspetrol's growth and expansion strategy in Ecuador. During his professional career, he has actively participated in the Asset Management and Pipeline Integrity committees in IAPG (Argentina), Project Management (Colombia, Ecuador, and Houston Chapters), and the Pipelines and Marine Terminals Committee (ARPEL). Since February 2024, he has been ENAP's Operational Integrity and Risk Manager.
