

ENAP

Douglas Sequeira Morgado

Integrated Corporate Risk Management

Engineer in Risk Prevention and Environment, with a degree in Quality Management from Universidad Católica del Norte, Master's Degree in Risk Prevention and Mining Processes. He has extensive experience in large mining operations and construction projects, both underground and open pit, as well as mineral processing plants and railway operations. Codelco, Anglo American, and SQM are some of the companies in which he has worked previously. He has competencies and skills in terms of knowledge and understanding of the business, as well as the ability to build links and obtain support and commitment. Before joining ENAP, he was the Occupational Health and Safety manager at Anglo American's Los Bronces mine. In November 2022, he assumed the role of Corporate Manager of Occupational Health and Safety. Since January 2026, he has been the Corporate Manager of Integrated Risks.
